SUMMARY

Builds full-stack products end to end, pairing performant backend systems and clean APIs with intuitive React interfaces. Statistics training brings a data-driven, analytical lens to every architectural decision.

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, SQL
Frontend	React.js, HTML5, CSS3, Tailwind CSS
Backend	Node.js, Express.js, RESTful API Design
Databases	MongoDB, PostgreSQL, MySQL
ORM / ODM	Prisma, Mongoose
Tools & Platforms	Git, GitHub, Vercel

PROJECTS

LB Consultancy | [Backend Repo](#) · [Frontend Repo](#)

Full-stack study-abroad consultancy and university connection platform

- Built a full-stack platform with a React.js frontend and a Node.js/Express.js backend, featuring separate public and admin interfaces for a study-abroad consultancy business
- Engineered secure JWT-based authentication and role-based authorization, restricting content management operations to verified admin accounts
- Designed and optimized MongoDB schemas with Mongoose to manage dynamic content across universities, countries, and services, supporting scalable CRUD operations
- Developed a responsive, mobile-first UI with React and Tailwind CSS, tailoring layout and navigation separately for public visitors and admin users
- Built comprehensive error-handling middleware and input validation across all API endpoints, with proper HTTP status codes to ensure stability and security
- Deployed the backend to Render and the frontend to Vercel, managing environment configuration across development and production

EDUCATION

Bachelor of Science in Statistics

Shahjalal University of Science and Technology, Sylhet, Bangladesh | 3rd Year (Expected Graduation: 2027) | CGPA: 3.57 / 4.00
